

Origami Box Instructions

1. Start with a square piece of paper, white side up. Fold the paper in half horizontally and then vertically, so the creases look like this.

2. Fold the four corners of the paper toward the center point.

3. Fold the top and bottom of this square into the center and open out again to create these creases.

4. Open out the top and bottom triangle flaps.

5. Fold the sides of the model into the centre, creating well.

6. Fold down top corner of model and then open out again.

7. Fold down model in the other direction.

You should now have two new diagonal creases like this.

8. Repeat step 6 & 7 at the other end of the model, so you have the new creases at both ends, as shown.

9. At one end of the model, open out model along the creases you just made. This will raise the top portion of the model vertically.

10. Fold top of model over into the box. It's taking shape!

11. Repeat Step 9 and 10 at the other end of the box... and it's finished!

To make a lid, just make another box, but start with a slightly bigger piece of paper.
