ZTNY – Easy

The river Pregel ran through the town of Königsberg. In the river were two islands, connected to each other and the rest of the city by seven bridges.

The residents of Königsberg challenged each other to walk through the city, and cross each of the seven bridges exactly once.

Can you find a path that they might have taken?

This is the 'Seven Bridges of Königsberg' puzzle, tackled by Leonhard Euler in 1736.
